

Whig and Courier.

John S. Hayward, Editor.  
MONDAY, OCT. 18, 1882.

WILLIAM A. GRAHAM  
OF NORTH CAROLINA.

NATIONAL WHIG NOMINATIONS.  
ELECTION, TUESDAY, NOV. 3, 1882.  
FOR PRESIDENT,  
**WINFIELD SCOTT.**  
FOR VICE PRESIDENT,  
**WILLIAM A. GRAHAM**  
OF NORTH CAROLINA.

For Presidential Electors,  
DANIEL GOODENOUGH, of Alfred,  
THOMAS S. PULLEN, of Dover,  
LYMAN B. GILES, of Dover,  
AMNER COLEMAN, of Portsmouth,  
JOHN B. MARROW, of Dover,  
JOHN B. BROWN, of Portsmouth,  
JOHN B. BROWN, of Portsmouth,  
WILLIAM AYER, of Dover.

The local leaders must have been greatly frightened prior to the recent State election in Pennsylvania and Ohio, as they exist greatly over the result, apparently very thoughtful that all is not lost. The present elections were made by their party to carry the "elephant" in the hope that it might help them in the presidential race, which they feel is a difficult one for them to manage.

It should be known that every well informed Whig in these States, understood very well that there would be a vast difference in the result between the October and November election. They told their friends at Washington and at Baltimore, that the State election would be no criterion by which to judge of the presidential vote; that Gen. Scott would prove by many thousands of votes stronger in these States than the Whig party. There was, then, no reasonable ground for the Whigs to expect to carry these States in October. They hoped, of course, to make some gains, and this they have done; but the local and the general election are altogether differently regarded by the people of these States. In the local elections there were local interests and attachments; but in the presidential election will come several vital issues, among them the question of the improvement of rivers and harbors. Besides, and this is potential, the people of these States know and honor General Scott, because they are acquainted with his character and his deeds as at familiar as household words.

When the day comes for the people to express their preference for a real, active, heroic and hard working General, whose strength of manhood has been devoted to the country, even a Mustang General created by the signature of Mr. Polk to a piece of parchment, the effect of this will be seen in November, and instead of the cautions of those leaders because they were not crushed before the time, causing any dependency to the Whigs, they have rather cause to find themselves up for an effort to give the vote of Maine to "Old Chubbuck" and be prepared to shout the glad triumph of the Whigs in November, when Scott leads the column, and the people bathe upon him a laurel of the White House at Washington.

The Harmonians on their return from a very successful professional tour through the British Provinces, will give a concert at Market Hall on this Monday evening. These vocalists may justly claim a high precedence in their art. Their execution is superior, their vocalization excellent, and their harmony the essence of melody. They display great taste in their selections, and appeal to the loftiest feelings in their graver selections, while their cute, rhapsodies appeal irresistibly to the humorous in man, and excite a healthy merriment. It is worth while to spend an evening with this company, and drive away the vapors and cobwebs of the nervous system, and lubricate all the fun-loving apparatus of the mind.

Rumors from Washington.  
The special correspondent of the Express writes from Washington, that the President's business is the subject of the Cabinet Meeting, and the administration seems quite excited about it. The owners of the Crescent City, it is certain, will not remove Purser Smith, and the government will not permit the male to be interfered with. The Lobs question is undecided; the Peruvian Minister has made no concessions.

An extra number of "Pine Tree State" has been issued at Camden containing a letter from Gen. Olin Prescott, declining the office of Presidential Elector, to which he was nominated by a convention of his party in the Lunenburg and Waldo District. In that district the two sections of the local party quarreled, held two conventions and made separate nominations. The voluntary withdrawal of the Harbinger candidate for Elector is a good enough acknowledgment of the reality of the Wild Cat convention, from which so many voted.

The local leaders love each other much; how much may be seen from the following from the Pine Tree State, edited by Hon. E. K. Smart.

"The Whigs of the Bangor Democrat, we agreed not to kick again. 'We' would kick a dog and certainly not a dead pig."

Hon. Eliza Whitely has received a letter from Mr. Jos. P. Brown, of Constantinople, in which it is stated that His Imperial Majesty Sultan Abdul-Majid is about to contribute a block of marble from Byzantium to the Washington Monument. The block will bear the effigy of the Sultan, and a proper inscription.

Children ought to be early taught that a dog is not to be helped, but to be kept.

We are located in the National Intelligence, that the Board of Managers of the Washington Monument, have received from the distinguished American statesman, Signora Biscaccini, in San Francisco, California, \$500, as the proceeds of a concert given in that city for the monument. It is the largest and most liberal contribution yet made to this patriotic and noble object. Biscaccini is a native of Boston.

Mr. Western Electric Telegraph in New York. Mr. Charles W. Schaffer of Kingston, whose name was placed by the New York Committee in the list of Webster Electors, has addressed a note to the Albany State Register, in which he says he regrets to see his name published as one of the Webster Electors. He states that it was without his consent.

The New foundation Electric Telegraph Company have purchased, at Philadelphia, a steam propelled yacht, with which it is proposed to board the "Arcton" steamer bound to the United States, while passing in the vicinity of Newfoundland, and procure from them the latest news, for transmission over their wires for the newspaper press, and by this means anticipate the arrival of the steamer.

Advertising and politeness are the main levers to get customers. Advertising will draw them, but it will not induce them to buy. Then the way to keep these customers is to be truthful, honest, and reliable, without deception and without fraud. Business that began and continued is sure to be successful.

A sale of the personal property of the late Hon. Henry Clay took place at Ashland on the 16th inst., and embraced about 20 head of thoroughbred cattle, several fine horses, and a quantity of ware, put up under the agency of Mr. Clay himself. The sale took place under the direction of his executors.

The Panama Herald of Sept. 21st, states that the collection of \$400 from that part of San Francisco, through an active movement among Whigs who were waiting to get away. The fare for storage passengers is now \$20 only, in both lines of Pacific steamers.

A letter from a merchant of Honolulu, dated Aug. 15th, says: "I believe there will be more of the taken this year than ever taken in one season. I have every reason to expect a large fleet in the fall, bound home, with plenty of oil."

Orders were received at the Brooklyn Navy Yard, to get the ship-of-war Marion ready for sea with all possible despatch. The order is thought to have to have some bearing upon our relations with Chile.

The editor of the Portland Chronicle says that he looks upon the annexation of all Mexico to this country, and the admission into this Union, as quite probable, and not very far distant.

A literary newspaper has recently been started at Lowell. It is edited and published by A. J. Currier, each week at \$5.00. It is of good size, and appears to be somewhat of the popular type.

One of the best comedians we have ever seen, is the following of Edgar Poe's: "Why will a geologist put no faith in the tale of the fox that hid his tail? Because he knows that no animal remains have ever been found in track."

The best vegetable pill yet invented is an apple-pumpling, for destroying a growing in the stomach, it is a pill which may always be relied on.

Regular passenger trains are to commence running upon the Androscoggin railroad between its junction with the A. and O. R. road and Livermore Falls, on the 1st of November.
